## **RoHS Certificate of Conformance**

The following ARMOR Poly® and ARMOR Wrap® products comply with directive 2002/95/EC (also known as RoHS) of the European Parliament.

All ARMOR Poly® polyethylene packaging films including all high density, low density, and co-extruded versions. (Defender™ and Crusader™)

All ARMOR Wrap® R, G and multipurpose inhibitor (designated by "MPI") VCI paper products.

The ARMOR Protective Packaging® products listed above do not contain the six materials specified in Directive 2002/95/EC at levels greater than allowed (weight percent) in Article4(1):

Lead  
Mercury  
Cadmium  
Hexavalent chromium  
Polybrominated biphenyls (PBBs)  
Polybrominated diphenyl ethers (PBDEs).

We certify that the following banded substances lead, mercury, cadmium, hexavalent chromium, PBB, and PBDE are not intentionally added to our products during any part of the manufacturing process. However, our products, as any others, may contain trace amounts of these banned substances coming from contamination and contact with other substances during their use. Letters of certification from our vendors are on record that support the above statements.

Quality Department  
ARMOR Protective Packaging®
